Foster Application

We are delighted that you are interested in fostering for us, and are grateful for your offer of help. We view our relationship with our fosters as partnership, and we will work with you to make it succeed. Our goal is to place dogs & cats in foster homes where they will fit with the foster's lifestyle, capacity and expectations. Sometimes we need emergency fosters we can call on, on a short notice basis for a few days to a week. Other times we need longer-term foster homes that are willing to medicate, train and/or socialize animals before they are adopted to permanent homes.

What kind of dogs are you available to foster, and what challenges you are willing and able to work with? Some rescue dogs can be more challenging than others. While some are owner surrenders, or have clearly lived as loved and socialized pets in the past, others are untrained or traumatized by careless, ignorance or cruelty. We often rely on our fosters not only to provide a safe haven for our dogs, but also to give them training and socialization as part of the family. (Some examples: pregnant or nursing females with puppies/kittens; scared or unsocialized dogs or cats; pets that are not yet spayed/neutered; bottle-fed kittens/puppies; dogs that may mark in the house or aren't yet house trained; dogs that are aggressive towards cat/small animals, or other dogs; sick or injured animals that require medical care):

Your application will be reviewed as soon as possible, if approved fosters are required to pass a home inspection, background check, and sign a liability waiver. By signing below you to agree to these terms.
